INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/CN2004/000683

	PC1/CN20	04/000683
Box No. I Basis of the report	L	
. With regard to the language, this report is based on:		
the international application in the language in which it was filed		
a translation of the international application into	which is the	1-
translation furnished for the purposes of:	, which is the	language of a
☐international search (Rules 12.3(a) and 23.1(b))		
publication of the international application (Rule 12.4(a))		
international preliminary examination (Rules 55.2(a) and/or 55.3(a))		
2. With regard to the elements of the international application, this report is based to the receiving Office in response to an invitation and the latest and the second of the second o	on (replacement sheets wh	ich have been formist.
of the possession in invitation under Afficie 14 are referred	o in this report as "origin	ally filed" and are no
annexed to this report):	,	any jinea ana are noi
the international application as originally filed/furnished		
the description:		
pages	as origin	ally filed/furnished
pages * received by this	Authority on	any med/umished
pages received by this		
the claims:	-	
pages		
nages *	as ori	ginally filed/furnished
pages * as ameno	led (together with any state	ement)under Article 19
pages * received by thi		<u>'</u>
received by thi	s Authority on	<u> </u>
the drawings:	•	•
pages	as origin	ally filed/furnished
pages received by this	Authority on	
pages * received by this	Authority on	
a sequence listing and/or any related table(s) - see Supplemental Box Relating		
Box Relating	g to Sequence Listing.	
The amendments have resulted in the cancellation of:		
the description, pages the claims, Nos.		
the drawings, sheets/figs		
the sequence listing (specify):		
any table(s) related to sequence listing (specify):		
This report has been established as if (some of) the second ways.		
This report has been established as if (some of) the amendments annexed to the since they have been considered to go beyond the disclosure as filed, as indicated to go beyond the disclosure as filed.	s report and listed below l	nad not been made,
the description pages	ated in the Supplemental	Box (Rule 70.2(c)).
the description, pages the claims, Nos.		
the drawings, sheets/figs		
the sequence listing (specify):		
* If item 4 applies some or all of these -		
"superseded."		
any table(s) related to sequence listing (specify): * If item 4 applies, some or all of those sheets may be marked "superseded."		

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; Box No. V citations and explanations supporting such statement 1. Statement: Novelty (N) Claims 2-18,20-38 Claims 1,19 Inventive step (IS) Claims 2-18,20-38 Claims 1,19 NO Industrial applicability (IA) Claims 1-38 YES Claims None NO

2. Citations and explanations (Rule 70.7)

D1: CN1175482A (Publication Date: 11.Mar. 1998)

D1(see claim1, example 1) discloses a molecular sieve, which contains vanadium and silicon in its framework and a catalyst which comprises above-mentioned molecular sieves. So both claim 1 and 19 are disclosed in D1, and they do not comply with the requirement of novelty according to Art33(2)PCT. Obviously, they do not comply with the requirement of inventive step according to Art33(2)PCT as well.

None of the subject matters of claims 2-18, 20-38 has been anticipated in the prior art. So claims 2-18,20-38 appear to be novel according to Art.33(2) PCT.

None of the subject matters of claims 2-18,20-38 could be obtained plainly or logically from the prior art, and they are not obvious to the skilled in the art. Therefore, in view of the documents cited in the Search Report, the subject matters of claims 2-18,20-38 appear to involve inventive step according to the Art.33(3) PCT.

Claims 1-38 can be made or used according to their nature and are therefore industrially applicable according to Art.33(4) PCT.
